

Sample Project Ideas (No JS or APIs allowed):

Project Example Idea 1: Safeguarding Information Suite

External user's goal: Users seek comprehensive information about safeguarding measures and resources to protect individuals from harm or abuse.

Site owner's goal: The site aims to provide easily accessible and valuable information on safeguarding practices and support services.

Potential features to include:

Multiple sections or pages covering various aspects of safeguarding such as child protection, domestic violence, and vulnerable adult support.

Detailed explanations of each topic, including information on signs of abuse, prevention strategies, and available support services.

External resource library with downloadable materials, guide, and contact information and videos, for relevant organizations.

Links to external Interactive quizzes or assessments to educate users on identifying and responding to safeguarding concerns.

A responsive design to ensure accessibility across different devices and screen sizes.

Project Example Idea 2: Prevent Awareness Website

External user's goal: Users want to understand the concept of Prevent and how it aims to counter radicalization and extremism.

Site owner's goal: The site aims to provide clear and accurate information about the Prevent strategy and resources for community engagement.

Potential features to include:

Multiple sections or pages explaining the principles of Prevent, its objectives, and how it operates within the wider context of counter-terrorism.

Case studies and real-life, local and national examples illustrating successful Prevent interventions or community initiatives.

Resources, including videos and other media, for educators, community leaders, and parents to recognize signs of radicalization and access support mechanisms.

External links to interactive workshops or webinars on topics related to Prevent, facilitated by experts or practitioners.

A responsive design to ensure usability and accessibility across various devices and platforms.

Project Example Idea 3: A Guide To Staying Safe Online

External user's goal: Users seek practical advice and tips on how to protect themselves from online threats such as cyberbullying, identity theft, and phishing scams.

Site owner's goal: The site aims to empower users with knowledge and resources to navigate the internet safely and securely.

Potential features to include:

Multiple sections or pages covering various aspects of online safety, including social media best practices, safe browsing habits, and protecting personal information.

Embedded video tutorials or demonstrations on setting up privacy settings on popular online platforms and securing devices.

Regularly updated blog or news section highlighting recent cyber threats, security breaches, and tips for staying vigilant online.

Resource directory with links to reputable cybersecurity tools, (password generator) helplines, and reporting mechanisms for online abuse.

External links to Safeguarding and Prevent topics.

A responsive design optimized for both desktop and mobile devices to reach a wide audience and promote accessibility

Project Example Idea 4: Celebrating Diversity

External user's goal: Individuals seeking information and resources that highlight the positive aspects of Diversity, Equality and Inclusion, steps to combat discrimination, support marginalized communities and guidance on allyship.

Site owner's goal: The initiative aims to celebrate diversity and provide accessible, informative, and actionable content to address discrimination and promote equality and inclusivity.

Potential features to include:

Multiple sections or pages focusing on characteristics protected by law. Includes information on Age, Gender Reassignment, Marriage/Civil partnership, Pregnancy/Maternity Leave, Disability, Race/Religion, Sex and Sexual orientation.

A section or page highlighting various forms of discrimination such as racism, sexism, ableism, LGBTQ+ discrimination.

Guides on recognizing and addressing discrimination in different contexts (e.g., workplace, education, public spaces)

A page including stories and achievements of individuals with protected characteristics.

Tools for allyship and advocacy, including template letters, petitions, and community organizing guides.

A responsive design optimized for both desktop and mobile devices to reach a wide audience and promote accessibility.
