

Preliminary Hackathon 1 Plan

Friday:

- Guided Session:** Go through the Safeguarding/Prevent/EDI Miro Board.
- The Hackathons Briefs will be shared on the slack channel following the guided session
- Stand Down:** The Hackathon teams will be shared with learners & briefs are assigned at random using a choice wheel.
- A Hackathon 1 Coding Resources & Tips PDF will be shared on Slack following the Stand Down.

Monday:

AM Each team needs to create a slack huddle group where you invite all members and @Alexnader_ci. This is where the main communication between team members should happen.

1. Decide on a team name
2. Decide on a project management tool (Github Projects or Trello)
3. Decide on using Bootstrap (version)
4. Create a project Repo & invite collaborators

PM The Team Leads present their team names, chosen technologies and plans to the cohort during stand down.

Tuesday:

AM A detailed hackathon schedule deck for the remaining days will be shared on the slack channel.

PM Discuss progress & challenges

Wednesday:

AM The Presentation Template will be shared on Slack.

PM Discuss progress & challenges

Thursday

AM Finish up and complete the README file.

PM Presentations & Judging (Feedback)
